

The Centriq Guarantee

We can't guarantee that everyone will get a job upon completion of their Career Track training program at Centriq. What we do guarantee is this:

- We have a full-time Career Services Director dedicated to finding open job positions for you.
- We consistently market our Career Track students to over 400 corporate customers.
- We work with you on developing job search skills in addition to teaching you technology skills.
- We provide professional resume templates designed to emphasize the technical skills employers look for.
- We work one-on-one with you to customize your resume in order to emphasize personal history and life experience.
- We make mock interviews available to practice before actual interviews.
- We provide seminars on "What to Wear" and "How to Conduct Yourself in a Job Interview".
- We help you to develop a "One Minute Commercial" to help in networking and standing out at career fairs.
- We teach you how to utilize free social media tools like LinkedIn to successfully network your way to a new career.
- We incorporate hands-on projects into our program so that you may demonstrate actual job skills to future employers.
